1. GENERAL

This document describes installation of Corning Cable Systems' 12-port OptiSheath™ Advantage Multiport Terminal into an OptiDrop™ Advantage Fiber Pedestal using the mounting bracketry preinstalled in the pedestal.

2. CARTON CONTENTS

- (1) OptiDrop Advantage Fiber Pedestal with preinstalled mounting bracketry

3. TOOLS REQUIRED

- Flat-tipped screwdriver
- 7/16-inch socket driver
- 3/8-inch socket driver

4. INSTALLING THE PEDESTAL AND MOUNTING BRACKET

Step 1 Unpack the OptiDrop Advantage Fiber Pedestal.

Step 2 Install the pedestal according to the instruction provided with it (Figure 1).

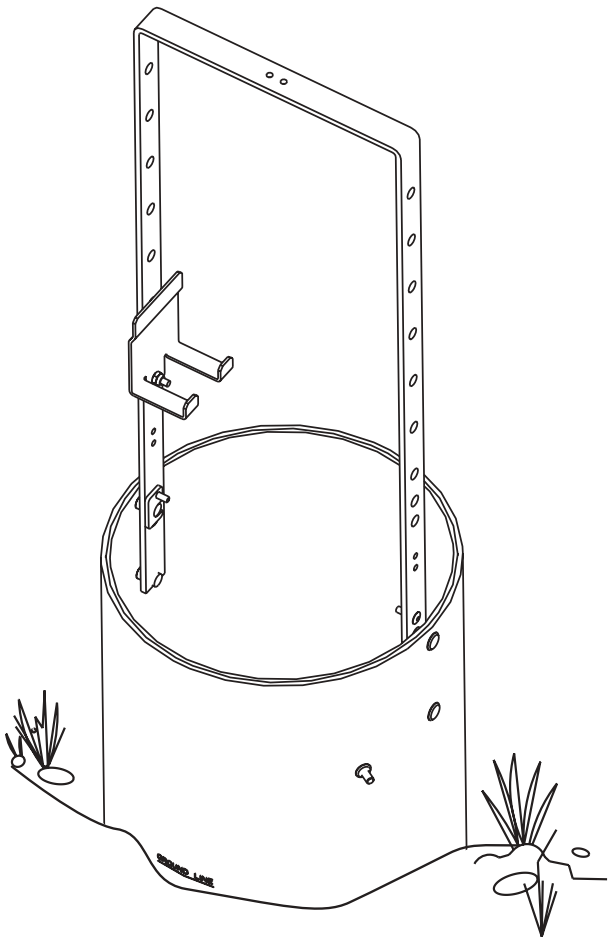

Figure 1 — Install Pedestal

5. INSTALLING THE TERMINAL

Step 1 Unpack the multiport terminal and coil the cable slack in the bottom of the pedestal.

Step 2 Set the terminal onto the mounting bracket as shown in Figure 2 with the cable stub between the fingers of the bracket. Secure the top of the terminal to the upright bracket using the hardware provided with the terminal.

Step 3 Splice the feeder cable(s) as required by your installation plan. If the cable requires grounding, follow local codes and standard practices to ground the cable.

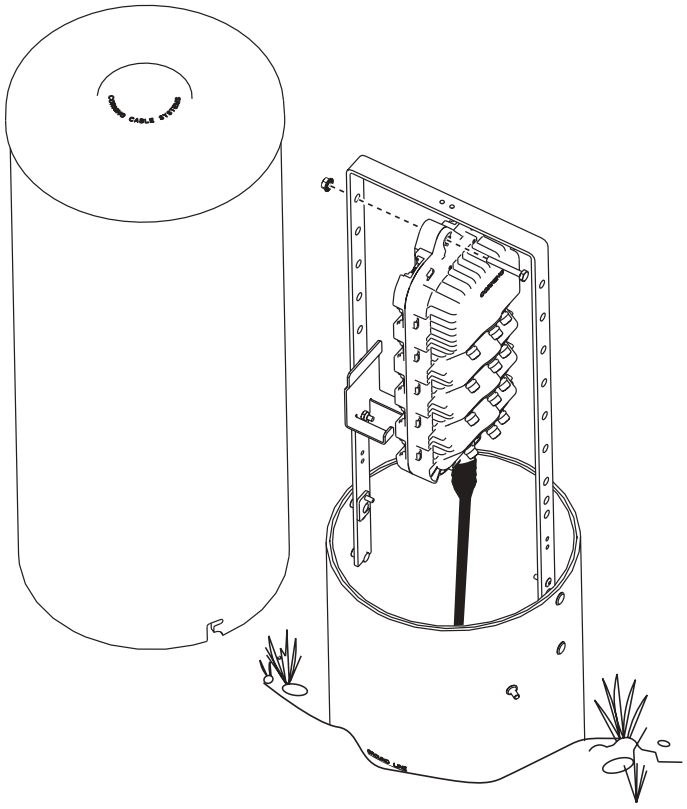

Figure 1 — Install Multiport Terminal onto Mounting Bracketry

6. COMPLETING THE INSTALLATION

Once all operations related to the multiport terminal installation are completed, finish any remaining installation procedures related to the pedestal itself. Install and secure the pedestal cover as described in the instruction provided with the pedestal.
