

FNI-NG Fiber Network Interface Device Enclosure

Empty housing, KS screw

CORNING

The Corning OptiWay® fiber network interface device, NG series is the next generation in all-plastic enclosures specifically designed to house electronic circuits for the growing fiber-to-the-premises (FTTP) and broadband access markets. This state-of-the-art fiber NID is designed to either replace or supplement existing fiber or standard copper NIDs. Suitable for outdoor environments, the OptiWay FNI-NG utilizes a smaller enclosure in keeping with the shrinking size of today's electronics. The enclosure incorporates a hinged interface for access to OEM electronics. An optional integrated slack storage housing combines economy of space with the trend toward customers' preference for a sleek appearance on the side of the house. The OptiWay FNI-NG fiber NID accommodates Corning proven OptiTap® drop cable assembly adapter in a more seamless manner than earlier models, greatly reducing installation time and complexity.

Features and Benefits

Compact, modular unit with craft-friendly design

Minimizes installation time with room for future expansion

Flame-retardant, impact-resistant engineering-grade thermoplastic and hinged cover with padlock

Maximum product lifetime and security

Flexible

Design accommodates many applications

Part Number: FNI-NG2-UUU10

Part Number: FNI-NG2-UUU10

FNI-NG Fiber Network Interface Device Enclosure

Empty housing, KS screw

Specifications

General Specifications

Product Type	Network Interface Devices (NIDs)
--------------	----------------------------------

Mechanical Characteristics

Dimensions (HxWxD)	12.7 in x 9.9 in x 3.8 in (32.3 cm x 25.1 cm x 9.7 cm)
Weight	2.5 lb (1.1 kg)

Ordering Information

Part Number	FNI-NG2-UUU10
Product Description	Empty housing, KS screw

Shipping Information

Quantity	10
Dimensions (HxWxD)	20 in x 20 in x 13 in (50.8 cm x 50.8 cm x 33 cm)
Shipping Weight	26 lb (11.8 kg)
